

# Fabric Softeners

ITEM	DESCRIPTION
BASE 150	Slightly cationic softener for natural, synthetic, and cellulosic fibers
BASE 94	Non-ionic softener in flakes for all types of fibers
BASE LW	Slightly cationic general-purpose softener in flakes
BASE PSF 2015	Hydrophilic concentrated softener, particularly suitable for cellulosic and animal fibers
BASE PSF/GL	Hydrophilic concentrated softener, particularly suitable for cellulosic and animal fibers
BIBIFLEX HY	Micro-macro silicone emulsion with hydrophilic amino functionality
BIBISOFT 150/20	General-purpose softener suitable for all types of fibers
BIBISOFT 50	Polyethylene glycol ether dispersion, suitable for post-dyeing treatment on cellulosic, synthetic, and blended fibers
BIBISOFT 517	Non-ionic softener for natural, synthetic, and blended fibers
BIBISOFT AC-MS	High-quality softener with antistatic properties for all types of fibers
BIBISOFT ACR	General-purpose softener, particularly suitable for PAC fibers
BIBISOFT ACR/K	Base for cationic softener with high substantivity, suitable for all fibers
BIBISOFT ACR/K 14	General-purpose softener, particularly suitable for PAC fibers
BIBISOFT AO	Softener for all fibers, with antiozonant properties
BIBISOFT AT 20	Pseudo-cationic softener for all fibers, virtually no yellowing
BIBISOFT AT CONC	Pseudo-cationic softener for all fibers, virtually no yellowing
BIBISOFT AT CONC CA	Pseudo-cationic softener for all fibers, virtually no yellowing

BIBISOFT AT15	Pseudo-amphoteric softener for all fibers, virtually no yellowing
BIBISOFT ATE	General-purpose softener suitable for all types of fibers, particularly cellulosic fibers
BIBISOFT BPS	Softener for cellulosic and blended fibers to improve sewability. Specifically for Denim fabrics
BIBISOFT CD	Pseudo-amphoteric softener for all fibers, virtually no yellowing
BIBISOFT CD 20	Non-ionic softener for all fibers, virtually no yellowing
BIBISOFT CD-SA PLUS	Non-ionic softener for all fibers, virtually no yellowing
BIBISOFT DT-G	General-purpose softener, particularly suitable for PAC fibers
BIBISOFT DT-M	High-quality softener with antistatic properties for all types of fibers
BIBISOFT E/8	Silicone emulsion with excellent softening and lubricating properties
BIBISOFT E/8 CONC	Silicone emulsion with excellent softening and lubricating properties
BIBISOFT FC	General-purpose softener, particularly suitable for PAC fibers
BIBISOFT FC 18	General-purpose softener, particularly suitable for PAC fibers
BIBISOFT FC/D	General-purpose softener, particularly suitable for PAC fibers
BIBISOFT GLE	High-quality softener for all types of fibers
BIBISOFT GLE/A	High-quality softener for all types of fibers
BIBISOFT KR	Softener for cellulosic and blended fibers
BIBISOFT NI 25	Non-ionic softener for natural, synthetic, and blended fibers
BIBISOFT PCE	Slightly cationic softener for all fibers, improves sewability
BIBISOFT PEP	Polyethylene micro-emulsion for finishing all types of fibers

BIBISOFT PHD	Polyethylene dispersion, excellent softener and lubricant for all fibers
BIBISOFT PME	Polyethylene micro-emulsion for finishing all types of fibers
BIBISOFT PME 40	Polyethylene micro-emulsion for finishing all types of fibers
BIBISOFT PNA	General-purpose softener suitable for all types of fibers
BIBISOFT RC	Softener with antistatic and slippery properties for yarns
BIBISOFT SF 13	General-purpose softener suitable for all types of fibers, AEEA-free
BIBISOFT SF30	General-purpose softener suitable for all types of fibers, AEEA-free
BIBISOFT SIS	Reactive silicone amino-modified micro-emulsion
BIBISOFT SMU/C	Liquid softener for all types of fibers and their blends
BIBISOFT STAE	Weakly cationic softener and lubricant for all types of fibers
BIBISOFT TI 25	High-quality softener for all types of fibers
MACROMONO MG 35	Semi-permanent softener for finishing all types of fibers
MARK PES 30	Softener with antistatic and slippery properties for yarns
MARK PES CONC	Softener, antistatic and lubricant for synthetic fibers
MICROMONO 209 PLUS	Amino-functional silicone softener micro-emulsion
MICROMONO HTC 30	Silicone amino-modified reactive micro-emulsion
MICROMONO MPW	Silicone softener for all types of fibers
MICROMONO NMW LIQ	Silicone micro-emulsion for permanent effects on all types of fibers
PRODOTTO 3649	Special finishing for cotton and blends

PRODOTTO GL100	Softener, lubricant in sizing preparation, antistatic
PRODOTTO GMR	Special finishing for silk
PRODOTTO PAEC48	Lubricant finishing for cotton yarns and its blends with synthetics
STAR 093	Hydrophilic silicone amino-functional micro-macro emulsion
TORSOFT 17	Cationic softener for all types of fibers
TORSOFT 50/P	Specific softener for cotton and natural fibers
TORSOFT 50/P PLUS	Specific softener for cotton and natural fibers
WIMAR BH COLORA	Weakly cationic softener for all types of fibers

## Bases for Fabric Softeners

ITEM	DESCRIPTION
BASE ACR/K	Base for cationic softener with high substantivity suitable for all fibers
BASE AF	Base for softener, particularly for cellulosic fibers, provides a fluffy and smooth feel
BASE AT	Base for softener for natural and blended fibers, with good antistatic effect
BASE DEA	Base for softener for natural and blended fibers, with good antistatic effect
BASE DEA/OL	Hand modifier for leather
BASE DES	Non-ionic hand modifier
BASE DT	Base for cationic softener with high substantivity suitable for all fibers
BASE GR	Base for softener for all types of fibers, soluble in cold water

## Mold Inhibitors

ITEM	DESCRIPTION
ANTIMUFFA	General-purpose antimildew-antifermentation agent
ANTIMUFFA CONC	General-purpose antimildew-antifermentation agent

## Antifoaming Agents

ITEM	DESCRIPTION
ANTISCHIUMA 222	High-yield silicone antifoam
ANTISCHIUMA 4411	General-purpose silicone antifoam
ANTISCHIUMA 4411	General-purpose silicone antifoam
ANTISCHIUMA FRS	General-purpose silicone antifoam
ANTISCHIUMA PANZ	General-purpose silicone antifoam
PRODOTTO 103 LIQ	General-purpose non-silicone antifoam

## Anti-redeposition Agents

ITEM	DESCRIPTION
ANTIPIEGA CS	Specific auxiliary to prevent the formation of creases and packing
PRODOTTO NY 50	Antibacking dispersing agent for nylon dyeing and its blends with cellulosic fibers
STAR 114	Specific auxiliary to prevent the formation of creases and packing

# Detergents

ITEM	DESCRIPTION
BERLIN K20	Discharge auxiliary for dyeing with vat, sulfur, and direct dyes
BIBISOLVE LK	Cleaner for printing frames and cylinders
BIPON ARP	Cleaner for cellulose-based fibers
BIPON LR	Product for cleaning dyeing machines
BIPON LRC	Product for cleaning dyeing machines
BIPON LY/S	Detergent, impregnating agent for silicone oils, finishing, and spinning oils, biodegradable
BIPON WM	General-purpose textile detergent
DERMO RN	Leather detergent
NETZMITTEL CS 29	Low-foaming detergent, impregnating agent for cotton and blends
PRINT 54	Surfactant suitable for washing after dyeing with reactive dyes
PRODOTTO 195 LC/G	Concentrated detergent to remove spinning oils and oil and grease stains
PRODOTTO 195/L	Concentrated detergent to remove spinning oils and oil and grease stains
PRODOTTO 25	Saponifier for reactive dyes
PRODOTTO 505 SF	Detergent, emulsifying, impregnating agent with foam control for universal use
PRODOTTO 50796	Detergent for washing wool tops and silk
PRODOTTO 78/S	Impregnating detergent for purging and continuous bleaching treatments
PRODOTTO NAC 50	Neutralization auxiliary

WIPON GR/458 P

Detergent, emulsifying agent with foam control for universal use

WOFF NLT

Specific auxiliary in the purging and bleaching treatment of cellulosic fiber fabrics

# Dispersing Agents

ITEM	DESCRIPTION
BASE 50M	General-purpose dispersing agent
BERLIN DIF	Dispersing, leveling agent for polyester dyeing
BERLIN K30	Dispersing, leveling agent for polyester dyeing
BERLIN OR	Dispersing agent for polyester dyeing
BIPON ABS PLUS	Dispersing detergent for dyed packaged goods treatments
BIPON FFU	Deaerating and penetration accelerator with antifoaming properties
BIPON JET	Deaerating and penetration accelerator with antifoaming properties
BIPON SC-L	Dispersing, detergent, emulsifying agent for general use
POLIAC 195/CONC	Dispersing – complexing agent for cotton dyeing processes and its blends
POLIAC 25	Dispersing-saponifying agent for dyeing with vat and reactive dyes
POLIAC DS	Dispersing – complexing agent for cotton dyeing processes and its blends
POLIAC GLI	High-biodegradable sequestrant dispersing agent
PRODOTTO 002	Impregnating dispersing agent with foam control
PRODOTTO ACW	Sequestrant dispersing agent for acid purging of natural fibers
PRODOTTO IGG 70	Sequestrant dispersing agent for polyester and cotton fabric dyeing
PRODOTTO OBB	Oxidizing and dispersing agent for vat dyes
PRODOTTO PFA	Dispersing agent for dyeing

PRODOTTO RAP	Dispersing agent for polyester fabric dyeing
PRODOTTO RO	Dispersing agent for reduction baths
PRODOTTO SL	Solubilizing, migrating, dispersing agent for basic, plastisol-soluble, and metal-complex dyes
PRODOTTO X-D	Dispersing-levelling agent for dyeing with indanthrene dyes
WOFF IWL 30	Solubilizing, migrating, dispersing agent for basic, plastisol-soluble, and metal-complex dyes
WOFF IWL 40	Solubilizing, migrating, dispersing agent for basic, plastisol-soluble, and metal-complex dyes
WOFF M	Deaerating-impregnating agent
WOFF WS/P	Dispersing agent for dyeing with vat and disperse dyes

## Fixatives

ITEM	DESCRIPTION
BIFIX LU	Formaldehyde-free fixer for direct and reactive dyes on cellulosic fibers
BIFIX R/100	Fixer for direct and reactive dyes
BIFIX S/60	Fixer for improving wet fastness of polyamide and its blends
BIFIX S/80	Fixer for improving wet fastness of polyamide and its blends

# Wetting Agents

ITEM	DESCRIPTION
BIPON OC	Impregnating detergent with low foam formation for all types of fibers
BIPON BG	Impregnating dispersant with low foam formation
BIPON DOS	Impregnating dispersant for all types of fibers
IMBI MRN	Impregnating, detergent for all types of fibers
IMBIBENTE NF liq	Impregnating deaerating agent for dyeing cellulosic fibers and their blends, especially for wrapped goods
IMBIBENTE OP	Impregnating-detergent with foam control for Jet machines and strong turbulence
MARK TRZ	Inhibitor of metal component response during garment processes
PRODOTTO LO	Impregnating detergent with low foam formation
PRODOTTO MN LIQ	Reduction inhibitor, oxidizing agent for printing
PRODOTTO MN LIQ 20	Reduction inhibitor, oxidizing agent for printing
PRODOTTO RK	Impregnating detergent with low foam formation
PRODOTTO SC	Impregnating detergent with foam control for Jet machines and strong turbulence

## Thread Lubricants

ITEM	DESCRIPTION
BIBISOFT LUB	Non-ionic lubricant for improving sewability of all fiber types
BOROVOL 200	Plasticizer for natural or modified starches used in yarn sizing
CERA BS2	Lubricant and antistatic agent for natural, animal yarns and their blends
CERA JR	Lubricant and antistatic agent for natural, animal yarns and their blends
PRODOTTO GL	Lubricating product used in the preparation of sizings and in the lubrication of natural fiber yarns

## Sequestering Agents

ITEM	DESCRIPTION
PRODOTT ALL IN	Unique product for purging and bleaching
PRODOTTO XCW NEW-LIQ	Saponifier for reactive and direct dyes
SEQUESTRANTE M500	Sequestrant for calcium, magnesium, and iron with excellent dispersing properties
YDRO 54	General-purpose sequestrant with dispersing properties

## Resins

ITEM	DESCRIPTION
SMARTREPEL HYDRO CMD	Fluoro-free water-repellent oil
PRODOTTO L70	Product with high moisture absorption capacity
APPRETTO TM 100%	Soft hand acrylic resin with permanent effect
BINDER SF	Soft hand acrylic resin with permanent effect
STAR 025	Polyester resin for finishing
PRODOTTO RPU	Hydrophilic thermosetting polyurethane resin
APPRETTO LMT SPECIAL	Polyvinyl resin in aqueous dispersion

## Buffering Agents

ITEM	DESCRIPTION
OXISTAB OS	Stabilizer for hydrogen peroxide in alkaline bleaching baths
BI-ACID PB LIQ	Acidic buffer for polyester dyeing
BI-ACID PSD	Acid buffer

# Leveling Agents

ITEM	DESCRIPTION
BERLIN KNS 17	Leveling and leveling agent for direct and vat dyes
BERLIN KNS CONC	Leveling and leveling agent for direct and vat dyes
BERLIN NEW/NL	Leveling agent with affinity for polyamide dyeing
BERLIN SET	Leveling agent – leveling agent for wool and blends with silk dyeing
BERLIN UN/EC	Leveling agent with affinity for polyamide dyeing
NICHEGAL PA 25%	Leveling agent with retarding properties for polyamide dyeing and its blends
WOFF RLN/150	Retardant for wool/nylon dyeing with acid dyes

## Other Products

ITEM	DESCRIPTION
AUCOTAN LR16	Auxiliary for leather
ANTISTATICO E	Antistatic for synthetic fibers and blends with cellulosic fibers
BIBASIC	Alkalizing agent for dyeing baths
BICAR BBC	Ecological carrier for low-temperature PES dyeing
BLANC 101	Liquid optical brightener with blue flame for cellulosic fibers suitable for bleaching with H <sub>2</sub> O <sub>2</sub>
CATALIZZATORE NKN	Catalyst for melamine resins
DECOLORANTE	Decolorizing agent for wastewater
PAWA	New concept protective colloid with multiple uses
PRODOTTO DU2	Special product for protonic treatment
PRODOTTO G 40	Emulsifier
PRODOTTO L2	Ecological liquid decolorizing agent
PRODOTTO P1	Ecological powder decolorizing agent
PRODOTTO PR 162	Specific product for silk processing
STAR 019	Antistatic additive for improving fiber processing

# Oleochemicals

ITEM	DESCRIPTION
VEGETOIL PH/Z LIQUIDO	Refined hydrogenated palm fat (liquid)
VEGETOIL PH/Z POLVERE	Refined hydrogenated palm fat (powder)
VEGETOIL PH/Z SCAGLIE	Refined hydrogenated palm fat (flakes)
VEGETOIL PH/Z LIQUIDO RSPO	Refined hydrogenated palm fat (liquid) RSPO
VEGETOIL PH/Z POLVERE RSPO	Refined hydrogenated palm fat (powder) RSPO
VEGETOIL PH/Z SCAGLIE RSPO	Refined hydrogenated palm fat (flakes) RSPO
VEGETOIL T2Z	$\alpha$ -tocopherol protected by a matrix of refined hydrogenated palm fat
VEGETOIL PH 10 POLV	Partially hydrogenated refined palm fat (powder)
VEGETOIL PH10-SCAGLIE	Partially hydrogenated refined palm fat (flakes)
